

SIDDHARTHAN MUTHUKUMARAN

Auckland, New Zealand | +64 20 436 7400 | siddharthanms0@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Analytics and operations professional with a Master of Analytics (Business) from Massey University and two years' experience building KPI dashboards and reporting automation across a global network of 80+ agencies at Omnicom Global Solutions. Combines SQL, Power BI, and Excel skills with postgraduate training in statistical modelling and data mining to turn raw data into decisions stakeholders can act on. Full New Zealand work rights on a Post-Study Work Visa.

CORE COMPETENCIES

Data & Analytics: SQL, Python (Pandas, NumPy), R, SAS, statistical modelling, regression, clustering, forecasting

Visualisation & BI: Power BI, Excel (Advanced), Tableau, Google Analytics, dashboard development, KPI reporting

Project & PMO Coordination: Governance frameworks, financial approval workflows, SLA tracking, cross-team delivery

Business Analysis: Requirements gathering, stakeholder communication, process improvement, data quality

Tools: Jira, Adobe Workfront, Hive, Microsoft Lists, Replicon

PROFESSIONAL EXPERIENCE

Line Chef (Part-Time) | Fantail and Turtle, Auckland, New Zealand | *May 2026 – Present*

- Prepares dishes to recipe and plating standard at an assigned kitchen station during service.
- Coordinates with the wider kitchen team to maintain pace and consistency during peak periods.

Retail Assistant (Part-Time) | Under Armour, Auckland, New Zealand | *Oct 2025 – Present*

- Delivers high-quality customer service in a fast-paced retail environment, consistently meeting sales targets through product knowledge and engagement.
- Manages POS transactions, inventory support, and store presentation to maintain brand standards.

Kitchen & Front of House Assistant (Part-Time) | Ohui Restaurant, Auckland, New Zealand | *Aug 2025 – Mar 2026*

- Coordinated orders between kitchen and front-of-house teams during peak service, maintaining accuracy and pace under pressure.
- Upheld hygiene and safety standards across all service areas while supporting a strong team environment.

Associate, Governance and Operations | Omnicom Global Solutions (Annalect), Chennai, India | *Jul 2023 – Feb 2025*

- Built and maintained 50+ Power BI and Excel dashboards tracking KPIs, SLA adherence, billing, and utilisation metrics across 7 Omnicom networks and 80+ global agencies.
- Reduced manual reporting time by 70% by automating SQL and Excel-based data workflows, freeing team capacity for higher-value analysis.
- Consolidated multi-source data from Replicon, Hive, Jira, and Adobe Workfront into structured reports for senior leadership and client-facing stakeholders.
- Designed and managed financial approval forms and scope trackers used as project contracts, ensuring governance compliance across all new engagements.
- Monitored and resolved quality breaches and delivery delays by coordinating across Resource Management, Project Controllers, and Client Success teams.
- Promoted within the Governance team after one year, taking on Creative Services coordination with additional support to Market Research, on the strength of consistent delivery and stakeholder trust.

- Recognised with Rookie of the Year and On-the-Spot awards in 2024 for consistent high performance and cross-team contribution.

Business Analyst Intern | KultureHire, Puducherry, India | *Nov 2022 – Apr 2023*

- Analysed survey datasets from 1,000+ participants using SQL and Excel to uncover hiring trends and candidate engagement patterns.
- Developed interactive dashboards to visualise recruitment metrics, enabling data-driven decisions for marketing and business development teams.
- Presented findings to stakeholders during live LinkedIn virtual sessions, communicating insights clearly to professional audiences in real time.

Business Development Intern | Vendra Enterprises, Chennai, India | *Apr 2022 – Jun 2022*

- Conducted market and competitor research to support strategic sales planning and identify growth opportunities.
- Built an Excel-based pipeline tracker to monitor leads, proposals, and deal status, improving sales team visibility and reporting.

EDUCATION

Master of Analytics (Business) | Massey University, Auckland, New Zealand

Key Papers: Data Mastery: Scripting, Databases & Data Privacy · Multivariate Analysis for Big Data · Practical Data Mining · Applied Econometric Methods · Customer Insights · Return on Marketing Investment

Bachelor of Engineering (Mechanical) | Anna University, Chennai, India

Electives: Principles of Management · Statistics & Numerical Methods · Cost Estimation · Process Planning

KEY PROJECTS

Hydro-Risk Price Forecasting Model — Capstone, Master's, Massey University

- Built a regime-sensitive framework modelling NZ wholesale electricity price risk (hydro storage, inflows, HVDC flows, climate indicators), identifying tail-risk amplification under low-storage conditions to generate procurement insights. Tools: Python, Power BI, Excel.

Credit Risk Segmentation & Customer Clustering — Multivariate Analysis for Big Data

- Applied PCA and clustering to segment 30,000+ credit users into behavioural risk groups, achieving 94% accuracy with discriminant analysis to enable risk-based pricing. Tools: SAS, Excel.

Financial Hardship Modelling — Applied Econometric Methods

- Modelled interactions between income, gambling harm, and financial literacy to quantify hardship impact, applying robust OLS regression and diagnostics to support policy recommendations. Tools: SAS.

CERTIFICATIONS & AWARDS

Certifications: SAS Academic Specialisation in Business Analytics — Massey University & SAS (2026) · Google Data Analytics Professional Certificate · Microsoft Career Essentials in Project Management · Microsoft Career Essentials in Business Analysis

Honours & Awards: Rookie of the Year — Omnicom Global Solutions | Annalect (2024) · On-the-Spot Award — Omnicom Global Solutions | Annalect (2024) · Academic Excellence — Massey University (2025)

Work Rights: Eligible to work full-time in New Zealand (Post-Study Work Visa)
